MITJAVILA

- Sans câblage électrique
- Alimentation autonome cellule photovoltaïque
- No connection to the main supply
- Autonomous power thanks to photovoltaic cells

PERGOLA

**PLUS PRODUIT :
 ADVANTAGES:**

- Design & esthétique
- Coffre pour protéger la toile
- Système de tension assurant une toile tendue
- Option alimentation autonome avec cellule photovoltaïque

- Design and aesthetic
- Fabric protected by the cassette
- Perfect fabric tension thanks to the spring system
- Autonomous power with photovoltaic cells as an option

MITJAVILA

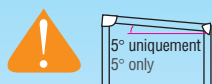

PERGOLA TOILE

FABRIC PERGOLA

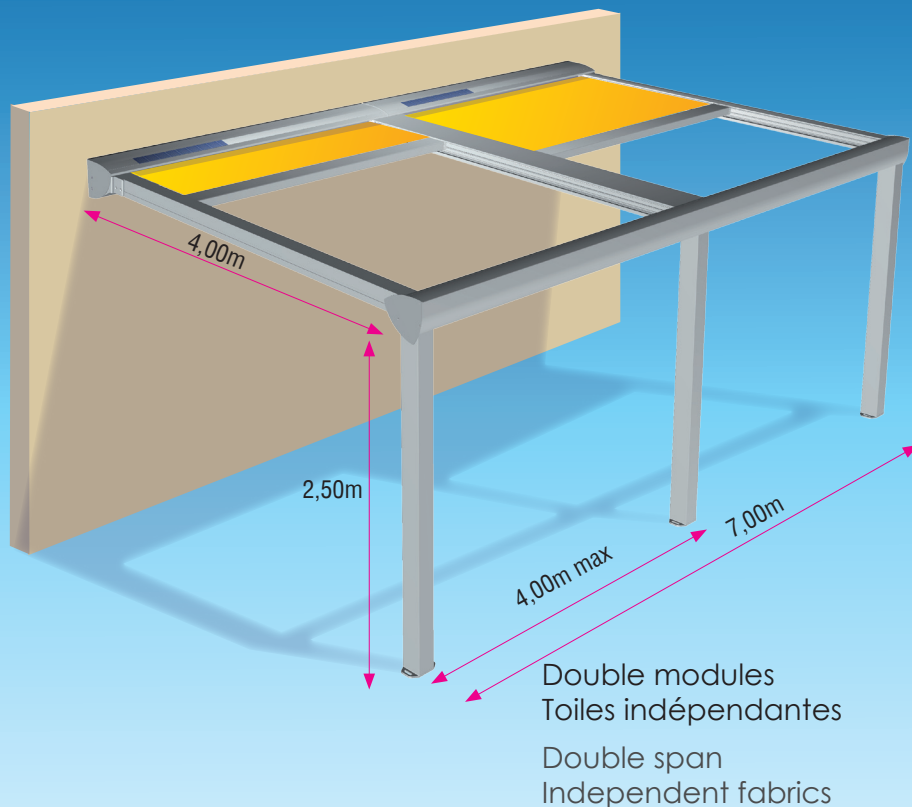

Autonome A modules
Autonomous Modular

- Avancée maxi **4 m**
- Largeur par module de **4 m**

- Projection up to **4.00 m**
- Width by module up to **4.00 m**

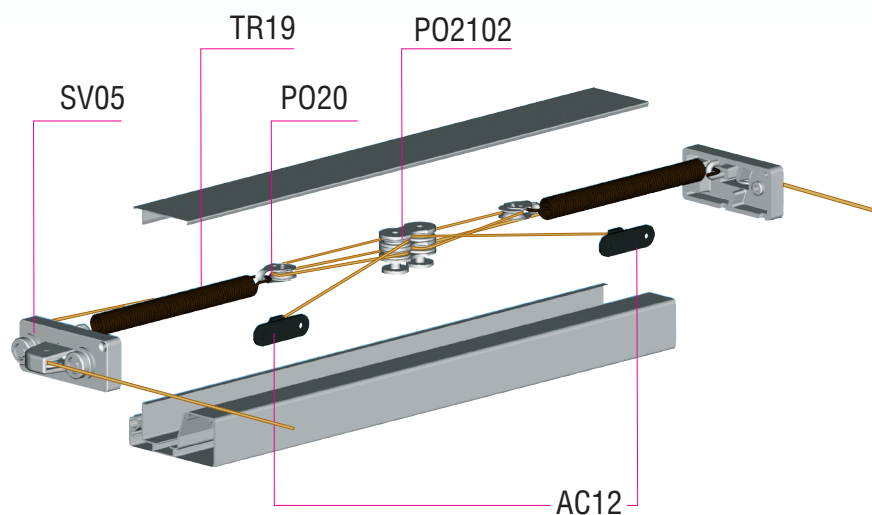

Cellule photovoltaïque (option)

Recharge Solaire

La pergola toile autonome recharge sa batterie grâce aux cellules photovoltaïques plus besoin d'installation électrique.

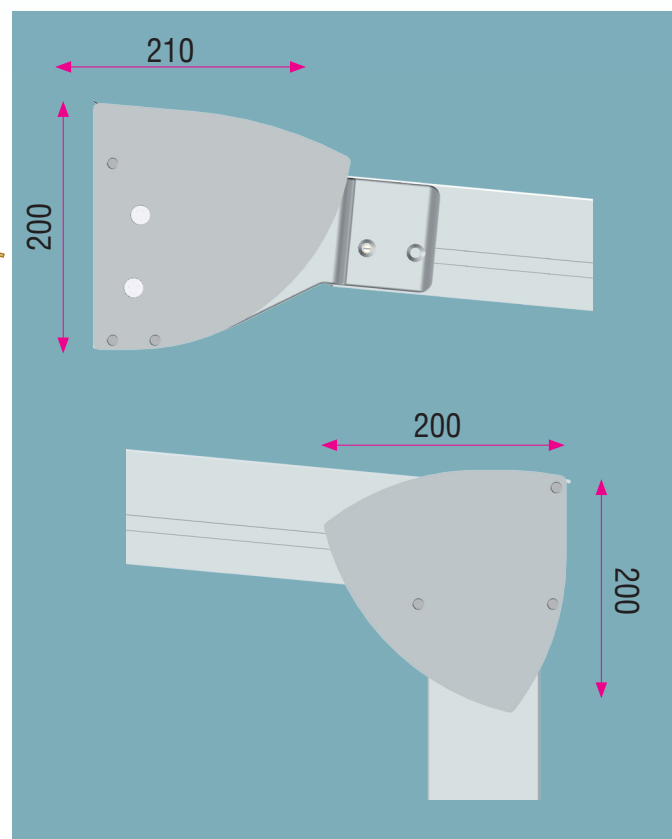

Photovoltaic cell (option)

The autonomous fabric pergola works thanks to photovoltaic cells charging the battery which will power the motor. The connection to the main supply is not needed anymore.

La barre de charge intègre un mécanisme qui assure la tension constante de la toile à l'enroulement comme au déroulement.

The front bar integrates a mechanism giving a constant tension to the fabric while opening or closing.
